

We offer full service industrial electrical and automation solutions to help your business thrive.

## ELECTRICAL & AUTOMATION

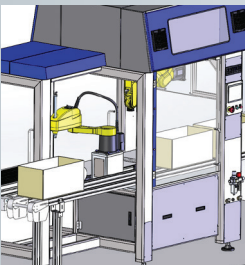

### DESIGN

Our talented design team can handle projects of any size or intricacy, ensuring a solution fit to your specific needs.

### TECHNOLOGY:

- Solidworks
- 3D Capabilities
- AutoCAD
- ProNest

### AUTOMATION + ROBOTICS

We're a full service automation and controls system integrator. Fanuc Authorized System Integrator for robotics.

### CUSTOM APPLICATIONS:

- Systems Integration
- Machine retrofits
- Control system upgrades
- Drive programming
- Robotics system integration & retrofits
- Much more

### MACHINE SAFETY

Protect your employees from workplace hazards with our engineered safety solutions.

TÜV Rheinland, #8576/14, Machinery

### CAPABILITIES:

- Functional safety
- Risk assessments
- Positioning of safeguard
- Safety training
- Safety hardware installation
- Machine safety guarding design
- Design of hard guarding

### ELECTRICAL CONTROL PANELS

Full control panel services from design, build, install and commissioning.

### CAPABILITIES:

- Build to print
- Custom control panels
- Point to point testing
- Full power up testing
- Finger safe electrical control panels
- Custom painting
- Motor Starter Panels

### ELECTRICAL INSTALLATION

Our expert electricians specialize in designing, building, installing, and maintaining electrical devices and systems.

### WHY DENTECH?

- Strong understanding of industrial controls
- Start-to-finish solutions
- On-site troubleshooting
- Neat and organized wiring
- Consistency
- Turnkey installations

### AYRDYNE®

Our original user-friendly control panel interface, customized to fit your every monitoring need.
