

Industrial Electrical Capabilities

About Us

Our skilled teams solve industrial challenges with custom solutions—from design through installation. We use our 40 years of experience and the best products from our trusted partners to increase production, enhance safety, and foster innovation.

Our Expertise

- Electrical engineering
 - Design and schematics
- In-house panel shop
 - 8,000 sq. ft.
 - Certified for UL508A and UL698A
 - Build to print
 - Custom builds
- PLC programming (8 programmers)
- Robotic programming (5 programmers)
- Field installation
- After sales support
 - Remote
 - On-site

Why Choose DenTech?

- Vertically integrated, multi-service provider
- 180+ employees
- In-house expertise for every stage of your project
- Collaboration to reach your goals
- On-site and remote support
