

DENTECH

INDUSTRIAL

Offering total Design-Build-Install capabilities and start-to-finish project management under one roof.

WHY DENTECH?

DenTech was formed in 1976 in Lancaster County, PA, an area with a wide and enduring reputation for exceptional craftsmanship and a strong work ethic.

Built on a foundation of design, machining and fabrication expertise, and bolstered by key acquisitions and partnerships, DenTech has expanded over the past 30+ years to include:

- Dust collection/air filtration
- Custom industrial machines
- Workholding fixtures
- Electrical control panels
- Field installation and service center, and more

Donaldson
Torit®
