

Our team designs, fabricates, and installs custom turnkey solutions for limitless applications. We're fully equipped in-house to roll, bend, and cut material to achieve an endless variety of fabrications. DenTech will work with you from consultation to project completion.

## FABRICATION

### DESIGN TECHNOLOGY

- Solidworks
- 3D capabilities
- AutoCAD
- ProNest

### CUTTING CAPABILITIES

- CNC HD-Plasma/Oxy-fuel
- Plate shearing
- Horizontal
- Band saw

### WELDING CAPABILITIES

- TIG
- MIG
- Stick
- Resistance-spot
- Brazing
- Field welding

### WELDING CERTIFICATIONS

- SMAW (stick metal arc welding)
- GTAW (gas tungsten arc welding or tig welding)
- FCAW (flux core arc welding)

### COATING TYPES

- Powder
- Anodizing
- Industrial painting
- Galvanized hot dipping
- Rubber
- Black oxide
- Ceramic

## WHY WORK WITH DENTECH?

- Custom solutions to meet your needs
- One purchase order
- Single point of responsibility
- Quick turnaround
- Highly trained & certified team
- 35 years of experience

### SOME OF THE POSSIBILITIES:

- Conveyors
- Carts
- Hoppers
- Cyclones
- Mezzanines
- Storage racks
- Duct work fittings
- Exhaust hoods
- Machine guards
- Structural steel
- Food-grade applications
- Pharmaceutical applications
- Custom weld fixtures
