

With over 35 years of experience, and a skilled in-house team, we pride ourselves as experts in industrial air filtration providing turnkey solutions to fit your needs.

## INDUSTRIAL AIR FILTRATION

### DUST, FUME & MIST COLLECTION SYSTEMS

We service, integrate and install all makes and models of collectors.

*Combustible dust + explosion protection.*

#### BENEFITS:

- Protect your employees from pollutants
- Comply with government regulations
- Boost worker productivity and lower operating costs
- Improve facility cleanliness

### INDUSTRIAL VACUUM SYSTEMS

Conveniently keep your facility cleaner, safer and more productive utilizing Donaldson and Nilfisk products.

#### ENDLESS OPTIONS:

- Central
- Portable
- Point of use
- Air-operated/Pneumatic
- Wet & dry
- Combustible dust safe
- Much more

### ELECTRICAL CONTROL PANELS

Full control panel services from design, build, install and commissioning.

#### CAPABILITIES:

- Build to print
- Custom control panels
- Point to point testing
- Full power up testing
- Finger safe panels
- Much more

### REPLACEMENT FILTERS & PARTS

We stock most common filters for your convenience.

*Ask about our service agreements!*

#### FILTER TYPES:

- Cartridge
- Powercore
- Pleated Bag
- Fabric Bag
- Helix
- Mist

### COMPLIANCE & STANDARDS:

Our systems can be designed to meet the codes and standards of:

- |                                 |        |                                       |
|---------------------------------|--------|---------------------------------------|
| • SMACNA                        | • OSHA | • IBC                                 |
| • Industrial Ventilation Manual | • MSHA | • Authority Having Jurisdiction (AHJ) |
|                                 | • NFPA |                                       |

### WHY DENTECH?

- No project too big or small
- One purchase order
- 35 years of experience
- Factory Authorized Installation & Service Center
- NFPA Compliant
- Highly trained, safe and professional team

### OUR PROCESS

- On-site consultation
- System Design
- Drawing submittal/approval
- Equipment & Controls
- Fabrication
- Installation/Rigging
- Electrical
- Start-up and training
- Follow up service
