

INDUSTRIAL VACUUM SYSTEMS

Keep your facility cleaner, safer, and more productive with a vacuum system custom-fit to your facility's needs.

KEEP YOUR FACILITY CLEAN & SAFE

Sweeping dust is ineffective and causes airborne particles that are harmful to your employees. Using a vacuum system reduces exposure to respirable dust, keeping your environment both clean and safe.

Utilizing Nilfisk, Donaldson, and BOFA equipment, we offer a wide variety of vacuum systems including:

- Central
- Portable
- Point of use
- Air-Operated/Pneumatic
- Single-phase wet & dry
- Three-phase wet & dry
- Cleanroom/controlled environment
- Explosion-proof/combustible dust safe
- Light-duty industrial
- Back vacuums
- Industrial wet/dry vacuum cleaners
- Hoppers/separators
- Packaging & trim
- Oil & shavings

WHY DENTECH?

- One purchase order
- 35+ years of experience
- Factory Authorized Installation & Service Center
- Highly trained, safe, and professional team

OUR PROCESS

- On-site consultation
- System design
- Drawing submittal and approval
- Equipment and controls
- Fabrication
- Installation and rigging
- Electrical
- Startup and training
- Follow-up service
