### CUSTOM MACHINES

If you're having trouble finding a solution to fit your needs, we can design a custom machine for your operation.

#### BENEFITS

- Increase productivity
- Boost efficiency
- Increase accuracy
- Assembly accountability
- Machine safety

### WHY DENTECH?

- No project too big or small
- One purchase order
- 35 years of experience
- Highly trained, safe and professional team
- Unlimited design possibilities
- Quick turnaround

### CUSTOM MACHINE IN-HOUSE PROCESS

- Team collaboration
- Initial concept & review
- Design & approval
- Fabrication & machining
- Assembly & testing
- Final runoff & Installation/  
Delivery
- Support
