

We develop the industrial solutions to help your business achieve production and safety goals.

WHY CHOOSE DENTECH?

- ⚡ Quick turnaround
- 💰 Competitive pricing
- 🔑 Turnkey installations
- 📍 Single point of responsibility
- 🔧 Unlimited design possibilities

ENDLESS CAPABILITIES

Our skilled teams solve industrial challenges with our custom solutions. We'll work with you from design through installation.

Industrial Air Filtration

Design
AyrDyne®
Dust, Fume, and Mist Collection Systems
Industrial Vacuum Systems
Explosion Protection
Replacement Filters & Parts
Dust Collection Service

Automation & Robotics

Design
System Integration
Electrical Control Panels
Custom Machines
Machine Safety
Automation Service & Support

UL508A
UL698A

Process Solutions

Design
Fabrication
Machining Services
Workholding Fixtures
Industrial Piping
Material Handling
Millwright
Industrial Maintenance

INDUSTRIES SERVED

Aerospace
Agricultural Equipment
Automotive & Trucking
Brick & Stone Manufacturing
Cement, Concrete, and Gypsum
Chemical & Petroleum
Commercial Printing
Compressor Manufacturing

Cosmetics
Firearms
Food & Pharmaceutical
Foundries
Furniture
Glass & Ceramics
Grain & Nut Processing
Marine

Medical & Dental
Metals (Primary & Fabricated)
Military
Mining & Quarrying
Plastics & Rubber
Textiles
Tobacco
Woodworking & Paper

SAFETY PROGRAMS

Our skilled technicians receive regular compliance training to stay current in all of the most crucial programs.

AYRDYNE®

AyrDyne is a monitoring system HMI for dust collection systems. With AyrDyne 4.0, operators have system visibility so they can monitor differential pressure of filters and trending data.

AyrDyne is completely customizable to fit the specific needs of your facility.
