Well over
1000 hours

Well over
\$1M

What
Happened

Worked Perfectly, DFE, SDK,
Flameless Vents, Isolation Valves

But.....

18 seconds later

What is going to be done

Fire Fly

- Fire detect and suppress
- \$200K per location = \$800k

DenTech

- Add VFD and brake to fan
 - Add Chemical suppression to clean side
 - Upgraded clean side ducting
 - Compressed air dump
 - HEPA Doors tethered
- \$105K per location = \$420K

Initial investment \$1M+

Additional Costs \$1.2M+
