

We perform risk assessments to evaluate the functional safety of equipment and systems. By addressing safety issues proactively, you can ensure your facility complies with OSHA standards, minimize workplace hazards, and reduce employee injuries.

SAFETY ASSESSMENTS

SAFETY STARTS WITH YOU

Our team will work with you to identify hazards and estimate associated risks.

Then we'll determine safeguarding options, based on industry solutions and mitigation techniques.

DenTech will provide you with a detailed report of identified safety issues and recommendations for reducing risk.

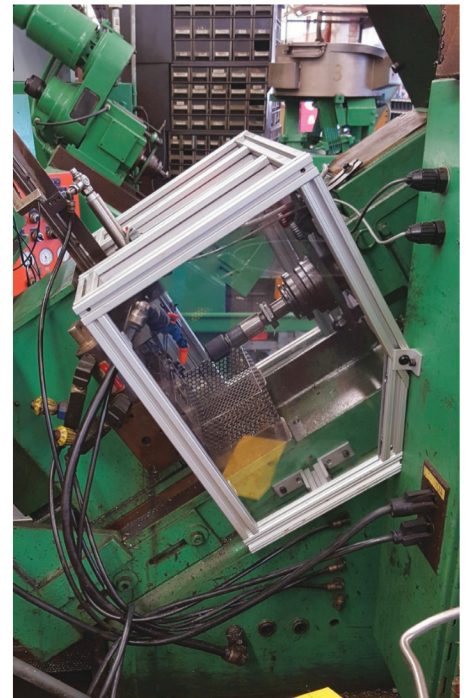

SAFETY CODES

- ANSI B11.0
- ANSI B11.19
- ISO 13849-1
- ISO 13849-2
- ISO 13855

BUT WE DON'T STOP THERE

Our talented team can develop custom safety solutions for you, including machine safety guarding, electrical controls, and automation.

DenTech offers full services: designing, building, installing, testing, and training. With engineered solutions in place, your facility will be a safer environment for your employees.
